

LED STOP/GO Board

Hand-Held illuminated STOP/GO board is used for the temporary control of vehicular traffic. The flashing LED illuminated **STOP** display greatly increases the signs visibility even on a clear day. In adverse weather conditions and when daylight begins to fade, the sign greatly.

improves the safety of the operator and vehicular traffic users. The Sign is lightweight yet robust enough to be used daily by highway operatives. The LED's are powered by a single battery, housed in a pouch that simply fits to the operator's belt, pocket or shaft of the STOP/GO board. The sign lasts 8 hours on a single charge. Recharge options include 12Vdc/230Vac charger.
